

SITE WORKS[FM] MODULE

Facility Maintenance

**MASTER THE
MONSTER**

CLOUD-BASED SOLUTION FOR ASSET OWNERS, AND FACILITY MANAGERS.

With OmTrak's Site Works Facility Maintenance Module, experience a seamless, technology-driven approach that redefines facility asset management. Integrate with ease, automate with precision, and manage with unparalleled control.

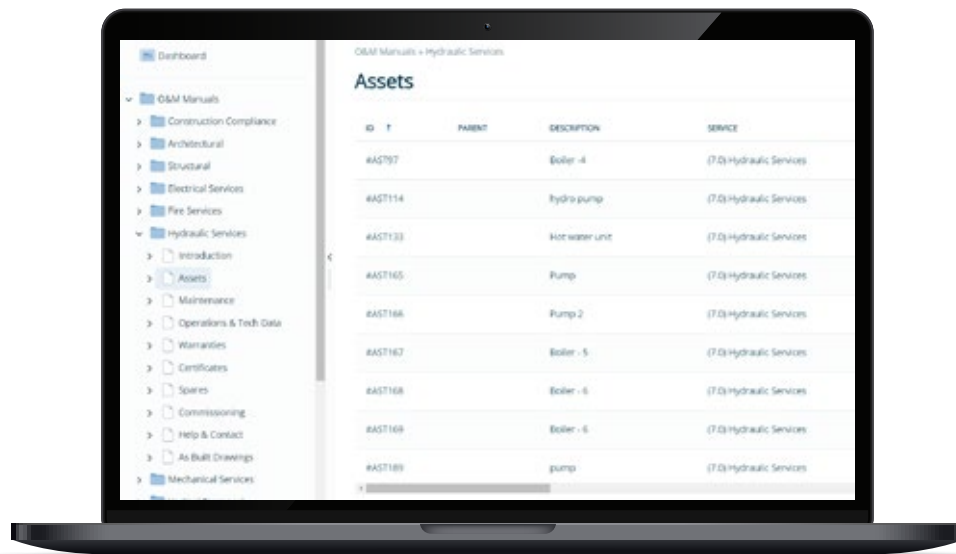

FM MODULE

Facility Maintenance

Designed for Excellence

User-friendly facility maintenance and lifecycle solution. Refined over two decades, it provides visibility across your assets ensuring simple and efficient planned preventative maintenance scheduling and works management.

Quick, Efficient Transition

- Easy setup with data continuity from OmTrak Manuals and Site Works Modules
- Automated scheduling directly linked to your asset portfolio
- Comprehensive, exportable reports for in-depth asset analysis

Streamlining Your Daily Operations

- Cost-saving automation and sensible design for easy adoption
- Capture and manage issues on-the-fly with our real-time, offline accessible mobile application

Maximise Facility Performance with Advanced Tools

- Asset barcode scanning for effective site inspections and recording works
- Offline updates to maintain operational flow
- Automated work orders and scheduling directly tied to your maintenance plan

Enhanced Accessibility and Control

- Access crucial asset information from any device
- Streamlined issue resolution through precise barcode scanning and instant alerts for rapid resolutions

The OmTrak Experience

- An intuitive platform for improved team collaboration via a cloud-based platform
- Continuous updates to keep your system at the forefront of FM technology

Dedicated Support for Your Continued Success

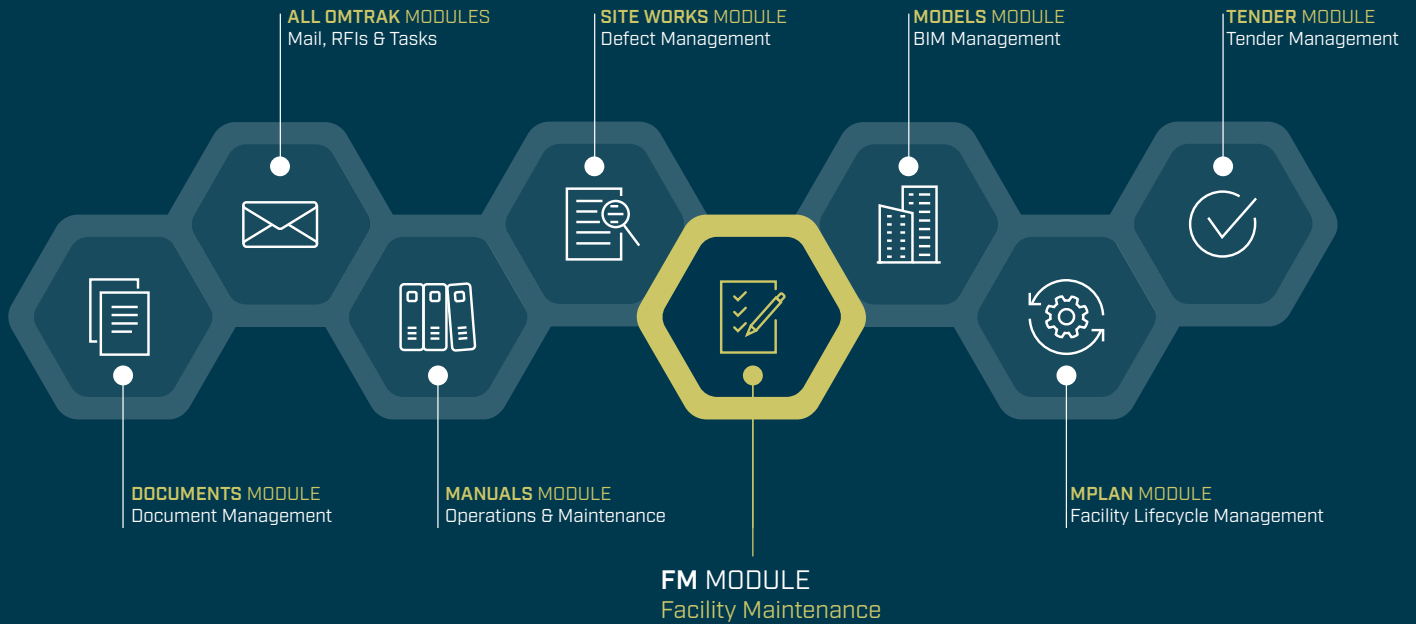

- Customised training programs to optimise your team's performance ensuring maximum productivity
- Substantial, year-on-year operational savings through improved efficiency
